

I find it unbelievable that advocates of LPFM would feel that there is little value in national and regional services such as those that K-LOVE provides on the FM stations. If it were not of any value people like myself would not be sacrificing in other areas to support it financially. K-love is the ONLY station in this area that I can safely leave on and not worry about my children and myself being subjected to crude humor, sexual explicit or suggestive conversations or music. Unfortunately, the only way to get this type of programming is to help fund it myself. BUT IT IS WELL WORTH IT! The effect on my family and friends would be devastating if K-LOVE were displaced by another station. Everyone I know has enjoyed the programming on K-LOVE for the same reasons as I do. It is uplifting and positive - two characteristics that are UNAVAILABLE consistently on ANY OTHER RADIO STATION ON THE FM frequency! I know, I've looked. WE NEED the services provided by K-Love because no one else on the FM dial is playing Christian music, which is full of hope and positive messages. K-Love has been a wonderful venue for spreading understanding and keeping the public informed of important issues as well. It would be an abomination for the FCC to displace a station like K-LOVE when it is obviously wanted by the public...we've been paying for it out of our pockets - that should be proof enough! Thank you, Rachel E. Cleveland
